Summary

Highly motivated B.Tech CSE student with expertise in Python, JavaScript, AWS Cloud, and Linux. Skilled in designing responsive, user-friendly interfaces and developing interactive applications. Built projects like dynamic websites, a voice-controlled music player, and a Python-powered virtual assistant with speech recognition. Proficient in HTML, CSS, JavaScript, Python, SQL, AWS cloud and Linux, with strong problem-solving and teamwork abilities. Passionate about leveraging innovative technologies to solve real-world challenges and drive impactful solutions

PROJECTS

1. Virtual Assistant

- Developed a Python-based assistant with speech recognition and text-to-speech for interactive user engagement.
- Features: Wikipedia search, web navigation, file/music management, and personalized interactions.
- Technologies: Python (speech_recognition, pyttsx3, wikipedia).

2. Dynamic Web Interface

- Designed a responsive, animation-rich front-end interface using HTML and CSS.
- Features: Clean UI, dynamic animations, and intuitive navigation.

3. Music Player with Voice Commands

- Created a custom music player with HTML, CSS, and JavaScript, featuring voice command controls.
- Features: Elegant UI, custom playback controls, and device responsiveness.

Skills

Python, MySQL, AWS, Linux, Cloud Computing, HTML 5, CSS

Education

Shri Shankaracharya Technical Campus | Bhilai, Chhattisgarh
B-Tech in Computer Science and Engineering | 08/2025
